

Public Health Announces 78 New Positive Cases of COVID-19 in Delaware, No New Deaths

SMYRNA (June 26, 2020) – The Delaware Division of Public Health (DPH) is announcing 78 new positive cases of coronavirus disease 2019 (COVID-19) in Delaware, as of 6:00 p.m., Thursday, June 25, 2020. No additional COVID-19 related deaths were reported Thursday.

While the total cumulative number of positive cases has increased by 37 between yesterday and today, the difference between the cumulative total increase and the increase in new cases is due to a data quality review during the transition to a new data surveillance system, which identified duplicate records in the data system. Removing duplicate records results in changes to the overall cumulative statistics. According to data entered as of 6 p.m., Thursday, 78 new positive cases were reported to DPH on June 25.

In addition, as the Division of Public Health works to stand up Delaware's new contact tracing program, DPH will transition to a different data surveillance system. The DPH epidemiology team and NORC at the University of Chicago have been working to test the system and ensure all case information is captured during the transition as well as ensuring consistent data flow to the [My Health Community portal](#). While DPH is working to minimize any interruptions over the next few days, data updates may not be available on Saturday, June 27, 2020.

A total of 507 Delawareans have passed away due to complications from COVID-19. Individuals who have died from COVID-19 ranged in age from 21 to 104 years old. Of those who

have died, 268 were females and 239 were males. A total of 242 individuals were from New Castle County, 89 were from Kent County, and 176 were from Sussex County.

To protect personal health information, DPH will not confirm specific information about any individual case, even if other persons or entities disclose it independently.

The latest Delaware COVID-19 case statistics* cumulatively since March 11, provided as of 6 p.m., Thursday, June 25, include:

- 11,017 total positive cases
- New Castle County cases: 4,840
- Kent County cases: 1,635
- Sussex County cases: 4,519
- Unknown County: 23
- Females: 6,085; Males: 4,914; Unknown: 18
- Age range: 0 to 104
- Currently hospitalized: 78; Critically ill: 15 (This data represents individuals currently hospitalized in a Delaware hospital regardless of residence, and is not cumulative.)
- Delawareans recovered: 6,661
- 91,083 negative cases**

**Data are provisional and subject to change.*

***Data on negative cases are preliminary, based on negative results reported to DPH by state and commercial laboratories performing analysis.*

Delaware is considering patients fully recovered seven days after the resolution of their symptoms. Three days after symptoms resolve, patients are no longer required to self-isolate at home; however, they must continue to practice strict social distancing for the remaining four days before returning to their normal daily routine.

Long-term Care Statistics

Information related to positive cases and deaths among residents at long-term care facilities will be updated weekly each Friday, using information reported as of 6 p.m. Thursday. There have been a total of 1,164 positive COVID-19 cases cumulatively involving long-term care residents, and 329 residents of Delaware long-term care facilities have died from complications related to COVID-19.

In addition, there have been a total of 461 positive cases, and one death, among staff members of Delaware long-term care facilities. Long-term care statistics reported by DPH are based on verified epidemiological surveillance data. Case data related to long-term care staff is limited to cases in which the individual self-identified as being a staff member at a long-term care facility during case investigation. Therefore, data reported may not be fully complete.

The locations and number of deaths involving residents of long-term care facilities are:

- Atlantic Shores Rehabilitation and Health Center, Millsboro (17)
- Brackenville Center, Genesis Healthcare, Hockessin (17)
- Brandywine Nursing and Rehabilitation Center, Wilmington (31)
- Brandywine Living at Seaside Pointe (2)
- Cadia Healthcare Broadmeadow, Middletown (10)
- Cadia Healthcare Capitol, Dover (6)
- Cadia Healthcare Renaissance, Millsboro (3)
- Cadia Healthcare North Wilmington/Silverside, Wilmington (3)
- Delaware Hospital for the Chronically Ill, Smyrna (9)
- Governor Bacon Health Center, Delaware City (1)
- HarborChase of Wilmington, Wilmington (4)
- Harbor Healthcare and Rehabilitation, Lewes (19)
- Harrison House Senior Living, Georgetown (39)
- Hillside Center, Wilmington (3)
- Little Sisters of the Poor, Newark (11)

- ManorCare Health Services, Wilmington (13)
- ManorCare Health Services, Pike Creek (15)
- Methodist Country House, Wilmington (3)
- Milford Center, Genesis Healthcare, Milford (33)
- Millcroft, Newark (2)
- New Castle Health and Rehabilitation Center, New Castle (9)
- Newark Manor Nursing Home, Newark (11)
- Parkview Nursing and Rehabilitation, Wilmington (23)
- Pinnacle Rehabilitation and Health Center, Smyrna (23)
- Regal Heights Healthcare and Rehabilitation Center, Hockessin (4)
- Summit Assisted Living, Hockessin (3)
- Sunrise Assisted Living, Wilmington (2)
- Westminster Village, Dover (7)
- Five other New Castle County long-term care facilities (1 death at each facility)
- One Sussex County long-term care facility (1 death at that facility)

Additional demographic data on COVID-19 cases and deaths, including race/ethnicity, more age-specific data and rates information by ZIP code, can be found on the [Division of Public Health's My Healthy Community data portal](#).

Information about testing events, including community testing sites and free-standing sites operated by the health care systems and hospitals, will be listed on the testing section of the Delaware coronavirus website at: <https://coronavirus.delaware.gov/testing/>. Please note for saliva-based testing events that while long-term care facilities are listed on the Curative registration site, they are not community-based testing sites. The long-term care facility registrations are not open to the public nor to family members of long-term care residents.

If you are sick with any of the following symptoms, stay home: fever, cough, shortness of breath, sore throat, muscle aches,

fatigue, chills, shaking with chills, loss of smell or taste. Other symptoms such as headache or digestive symptoms (vomiting, diarrhea, abdominal pain or lack of appetite) have been identified as potential symptoms related to COVID-19 and may prompt further screening, action or investigation. If you are sick and need essential supplies, ask someone else to go to the grocery store or the pharmacy to get what you need.

If you believe you have been exposed to someone with COVID-19, or have symptoms of illness, make sure to distance yourself from others, particularly vulnerable populations. Older adults and people of any age with serious underlying medical conditions – including serious heart conditions, chronic lung conditions, including moderate to severe asthma, severe obesity and those who are immunocompromised, including through cancer treatment – may have a higher risk for severe illness from COVID-19.

Individuals who have complaints about individuals violating public gathering restrictions should contact state or local law enforcement. Concerns that a business may be violating operating restrictions should be directed to: HSPContact@delaware.gov. Questions related to business reopenings or operations as businesses reopen should go to COVID19FAQ@delaware.gov.

Individuals with questions about COVID-19 should call Delaware 2-1-1, individuals who are deaf or hard of hearing can text their ZIP code to 898-211, or email info@delaware211.org. Hours of operation are 8:00 a.m. to 9:00 p.m. Monday through Friday; 9:00 a.m. to 5:00 p.m. Saturday and Sunday. Medically related questions regarding testing, symptoms, and health-related guidance can be submitted by email at DPHCall@delaware.gov. Questions regarding unemployment claims should be emailed to: UIClaims@delaware.gov.

In addition, the Division of Public Health asks any Delaware health care, long-term care, residential, or other high-risk

facility with questions or concerns to email: DPH_PAC@delaware.gov or call the DPH Call Center at 1-866-408-1899 and press ext. 2.

DPH will continue to update the public as more information becomes available. For the latest on Delaware's response, go to de.gov/coronavirus.
